

Pauta

A ConT_EXt module to typeset templates for calligraphy practice.

The image displays ten sets of horizontal lines for handwriting practice. Each set is composed of four lines: a top line, a baseline, an x-height line, and a descender line. A small square marker is positioned at the beginning of each line to indicate the starting point for a letter. The sets are arranged vertically, providing a template for practicing the Carolingian script style.
